**SOMETHING SPECIAL FOR YOU!**

From E. B. WILLIAMSON, GOSHEN, IND.

**Most Carefully Selected**

**Quality is Beyond Question**

**MAMMOTH LONG RIBS**

**SMALL NURSERY STOCK**

**IN PRESENTING** this season's pamphlet, I do not offer an extensive line, but make a specialty of the seeds and plants herein listed. You do not want poor stock at any price, and I affirm without qualification that my prices are as low as quality supplied with chastity. I want your trade and will give value received in quality for money sent me.

ORDER EARLY. Look this pamphlet over carefully. Make up your order now and forward same. Then there will be no delay when planting time. Remember, I can furnish THE VERY CHEAPEST SEEDS FROM THE VERY CHEAPEST STOCK.

Yours truly,
E. B. WILLIAMSON

---

**Sweet or Sugar Pumpkins**

If you want genuine, good old-fashioned pumpkin pie, plant my seeds. They rank quick and are really delicious rather small, flattened at the end, slightly ribbed on the outside and smooth on the inside. An excellent keeper. Price, 10c per pkg.; 3 for 25c.

**Golden Wax Beans**

The most popular variety and this popularity is due largely to the fact that the spinach has a great improvement of flavor, color, size, uniformity, and wonderfully prolific. This stock is one of the handsomest beans I have ever seen, the pods a rich golden yellow color and of a perfect shape and size. Be sure and include in your order now. You will find them most delicious. Price, 10c per pkg.; 3 for 25c.

**Icicle Radish**

This is a new, extra early variety with color of some white. It is in itself a beauty and is of excellent solid flavor, many claiming that it has a better flavor than the early varieties. It has the same uniformity at all stages of its growth and is the most popular of any of the white varieties. If you want good radish you are making no mistake in selecting this seed for your garden. Price, 10c per pkg.; 3 for 25c.

**Crisp-as-Ice Lettuce**

This is a medium texture of the endive type. The solid heads are of medium size and the leaves are an tender and desirable to have suggested the name, CRISP-AS-ICE. Head has a rich yellow heart. The leaves are thick and juicy, some with curled, golden color, varie-gated with brown. It cannot be overstated or over praised for its mellowness, winter, summer or late in fall. Price, 10c per pkg.; 3 for 25c.

**Tom Thumb Pop Corn**

The newest and best. Denser growing, heavy crop- ping, very pretty. Pops twenty times its size. Nothing has been equal to it. Price, 5c per package. It is the best and perhaps the most marketable variety. Price, 5c for a big pack; 3 for 25c.

**Delue's Golden Giant, the Sweetest Sweet Corn on Earth**

(See Description) - on Black Page

---

**The Problem Before the American Farmer Today**

Is to make two ears of corn grow where only one grew before. Land advancing makes this a very necessary achievement, and your Seed Corn is a mighty important item. At the recent Corn Show held at Chicago, INDIANA CORN again showed its supremacy. My Seed Corn is all Indian grown, and is absolutely guaranteed true to type.

**Williamson's Improved Early Learning Corn**

This strain of Early Learning has been tried and kept pure for eighteen years by Isaac Williamson of Kosciusco County, and is known as the best strain of this variety grown in this part of the country. Its uniformity is so far beyond all others as to make it justly worth its double price. Price, $1.15 per bu.; 3 lbs. $3.45; 15 lbs. $46.50.

**Williamson's White Wonder Corn**

This is quite a white corn with red cob. It is, without a doubt, the greatest yielder I have ever seen. After picking corn over 30,000 bushels during the last few months, I have yet to find a variety which would even come close to it in 15 days. I would like to see every farmer make a start on this corn this year. Every exhibition of this corn has set a new high mark, having a tested uniformity on hand, therefore, I can set a new high mark on this. Price, 50c per pound; 3 lbs. $1.00.

**Kauffman's Calico Corn**

This corn will be sold in a lot of a start this year. Great yielding, plenty lodging and good old variety of corn. Rich in color and grain, and especially sanctioned by the farmers of the Northern States and Canada, where other varieties could not thrive. It will mature in 100 or 105 days, and is quite the best kind of the kind. Price, 5c per lb.; 3 lbs. 15c; 15 lbs. $1.15.

---

**DELUE'S**

The perfect bushel of corn is the perfect family, or the perfect neighborhood—nothing very rare. Go to your own cell and pick out a bushel of the best corn you can find, and see how rare the perfect ear, that comes up to the standard in every way. I've got some pretty rare corn out, and I know the corn I sell.
A FEW FACTS ABOUT GOOD RASPBERRIES

(Photographs Don't Lie)

EACH year we hear of a new raspberry being introduced. Some of them have proven to be successful, but by careful observation and actual experience we find that our NEW IMPROVED CUMBERLAND (Black Cap) and SCOTT'S COLOSSAL (Red) to be the most reliable, most prolific and best money makers of them all.

RASPBERRIES are the most delicious and popular of all small fruits, except possibly, the strawberry. They are more and more becoming the most profitable of the bush fruits, and should be grown commercially for all markets as well as home uses.

WHEN BUYING RASPBERRY PLANTS you can't afford to take chances. You can't afford to plant anything that you do not know to be right. In no other business must the buyer lean so strongly upon the producer as in this business, for you do not know whether or not your plants will be right until they come into bearing.

I absolutely guarantee that all plants sent out by me to be strictly as represented.

DELIGHTFULLY DELICIOUS SCOTT'S COLOSSAL RICH RED RASPBERRY

SCOTT'S COLOSSAL is a large, handsome, bright red raspberry that stands today a great producer, a sure cropper, and of the finest quality. On account of the phenomenal yield of each plant and the huge proportions to which it grows, no one will need a large quantity for personal or family use.

"THE PROOF OF THE PUDDING IS IN THE EATING"

Improved Cumberland Black Raspberry

A view of the most wonderful producing sixty-year-old IMPROVED CUMBERLAND BLACK RASPBERRY patch. This match has never failed to produce good crops, and berries, sold from it the past season netted $586.00 per acre, wholesale.

PLANT THESE in Your Garden This Year:

"DeLee's Golden Giant" Sweet Corn
"1200-1 to 1" Navy Beans
"White Icicle" Radish
"Improved Golden" Wax Beans

You Will Be More Than Pleased

ALL ORDERS will be acknowledged promptly and shipments made when the weather condition permits.

To avoid danger of cold and frost, those living in the North please take into consideration the difference in our climate. ALL SEED ORDERS go forward at once.

IF INTERESTED in nursery or shrubbery not listed in this pamphlet, write me your wants. I am located adjacent to one of the largest and most reliable nurseries in the middle-western one where you can obtain reliable stock, true to name, reasonable prices and honorable treatment.

LOOK the Seed List Over.

Remember, there is real quality in every pack. There is no better anywhere no matter what the price.
LISTEN!

I OFFER NO PREMIUMS in order to get your business, but give you sixteen ounces of high-class quality for every pound of business I do with you. I am running a real, legitimate business, free from all get-rich-quick schemes, hot air, inflated prices and exaggerated claims. If you approve of this kind of business, I would be glad to have your order. If not personally interested, kindly hand this pamphlet to a friend. I feel that you would be doing them a favor, and I know you would be doing one for me. An order here and an order there, gotten in this way, all soon mount up to a big lot of orders. I am trying to give you all a good, fair, square deal, and a little better treatment than you would get elsewhere. I want to spread the business and enlarge it just as much as I can. I am always wanting more customers. You can help by speaking to that neighbor of yours.

Yours truly, E. B. WILLIAMSON.

NEW IMPROVED
CUMBERLAND
RASPBERRY

APPROACHED BY NO OTHER IN EITHER QUALITY OR COMMERCIAL VALUE

OF THIS berry I cannot say too much in praise. It is the greatest commercial berry of them all. For canning it has no equal. It will develop a larger crop of fruit than any known variety and the plants will yield continually for years.

Plant This Year—Yields Next
My stock is wonderfully productive, producing regularly and uniformly very large crops. The berry is unusually firm and is well adapted for long shipments.

Greatest Value Ever Offered for the Money
These two varieties of raspberries are the beginning and end of every good quality in the raspberry list and should be grown in every garden.

BLACKBERRIES
ELDORADO

A STRONG growing, hardy variety; very productive, fruit very large, jet black in large clusters and of highest quality. Its keeping quality is unsurpassed and commands the highest market price. (Price same as Blackberries.)

STRAWBERRIES

I HAVE come to the conclusion that for the average farmer and back-yard grower there is one variety that will fill the bill, one that is so much superior to all others, one that is self-gallanting and therefore a perfect berry, one that is hardy, notwithstanding the severe winters, a good grower and plant maker, very vigorous, a prolific bearer of luxuriant fruit, one that is adapted to every locality, in fact, one that has so many good points in its favor and so much superior to other sorts that I have concluded to handle this one kind.

SENIOR DUNLAP

This berry has established greater popularity than any other sort offered. Grows immense quantities of large, handsome berries that are a rich, dark red with glossy finish shading to deep scarlet on the under side. Noted for uniformity in size and shape. The rich, bright red of its meat and delicate flavor makes it really ideal. Be sure and plant a SENATOR DUNLAP garden this spring (March, April or May). Don't let this season slip by without doing so, but order AT ONCE while you have it in mind and before they are all sold.

Prices: 100, $1.25; 200, $2.00; 500, $4.00; 1000, $7.00
DeLue’s Golden Giant Sweet Corn

“THE NEW MASTER OF THE FIELDS”

DeLue’s GOLDEN GIANT excels all other early varieties in size, productivity, and quality, and all of the late varieties in quality and early maturity. It is the one corn for the market gardener who wants the greatest amount of the highest quality corn in the shortest period of time from the smallest piece of land. It is because of the extreme tenderness combined with the exquisite rich sugary flavor, that the Golden Giant corn has become the standard of perfection for sugar corn, when you consider that its admirers report that it is one of the 'two weeks' earlier and two or three times as large as its own parent. The Golden Buntam, of better quality, deeper color and more productive, you may be sure that is has well earned the title of “The New Master of the Fields.”

I want every one of my customers to try this new sweet corn. You will agree that I have done you a gracious favor in making this selection, and nothing will ever bring you to look further in the sweet corn line. Several seed firms are introducing a yellow corn for the gourmet. My seed is the real thing, the original DeLue’s Golden Giant, and is absolutely guaranteed as our other seeds listed in this pamphlet. Buy all seeds in this wonderful sweet corn.

Price, 25c per package; three for 60c.

The Very Choicest Seeds from the Very Choicest Stock

WATERMELONS

Its mighty hard to make a choice of Watermelons; they are all good, and I could be happy with any of them. However, I have boiled it down to two varieties.

Kleckley Sweets

This is the original strain and is probably best known. It is too brittle to ship but our local raisers have met with good success in handling to near by markets and disposing of them with profit.

Without question it is one of the sweetest flavored of all melons. Oblong in shape, skin dark green and flesh bright red.

Price, 10c per package; three for 25c.

Tom Watson

This is an extra long melon of attractive appearance, uniform in shape and quality. It is “sweet as honey,” crisp and delicious. The rind is thin but tough, and flesh a bright red attractive color. The heart is large with no core therein. Our seed was grown from selected stock under our most favorable care, and is a great improvement over the introducer’s stock.

Price, 10c per package; three for 25c.

Best Quality—Prompt Service—Satisfied Customers

MUSKMELONS

Osage

This is a selection of the old Hackensack, which it resembles, but is in ten or twelve days earlier. The melons weigh from four to ten pounds and are of most excellent flavor. It is one of the earliest, hardest and most profitable of seeded melons.

Price, 10c per package; three for 25c.

Rocky Ford

This continues to be one of medium size and shape, heavy netted and very solid. The flesh is green, thick, juicy and of delicious flavor. Very early and wonderfully productive. My seed is saved from selected choice first rate stocks most seasons. Price, 10c per package; three for 25c.

GROW MORE SUNFLOWERS

Mammoth Russian Sunflowers

FOR years I have studied and experimented with sunflowers. At first, the heads being large and stocks small, they would break, consequently would not develop into a large and perfect flower. This I have overcome today I fully believe that I grow the largest and most perfect sunflower in the world. My seed has been grown with good success in every state in the union and many foreign countries.

SUNFLOWERS are a most healthy food for poultry. You will find it in every high grade commercial scratch feed. Planted in their runs they make most excellent shade. They have been found to have considerable value for slope purposes, and is not unlike that fields of sunflowers may become common throughout the corn belt. My seed this year has been most carefully selected and only sold in packages.
